What is F1?

Formula One cars are the fastest regulated road-course racing cars in the world, owing to very high cornering speeds achieved through the generation of large amounts of aerodynamic down force.

Formula One racing is governed and sanctioned by a world body called the FIA – Fédération Internationale de l'Automobile or the International Automobile Federation. The name 'Formula' comes from the set of rules that the participating cars and drivers must follow.

The objective of a Formula 1 is for the driver's who crosses the finish line first after completing a pre-determined number of laps is declared the winner. Points are awarded for each race in accordance to race finish order.

History

Points

Scope

Where it all started

In 1946, the FIA standardized racing rules and this formed the basis of Formula One racing. The inaugural Formula One World Drivers' championship was then held in 1950, the first world championship series.

History

Current Grand Prix Points Distribution:

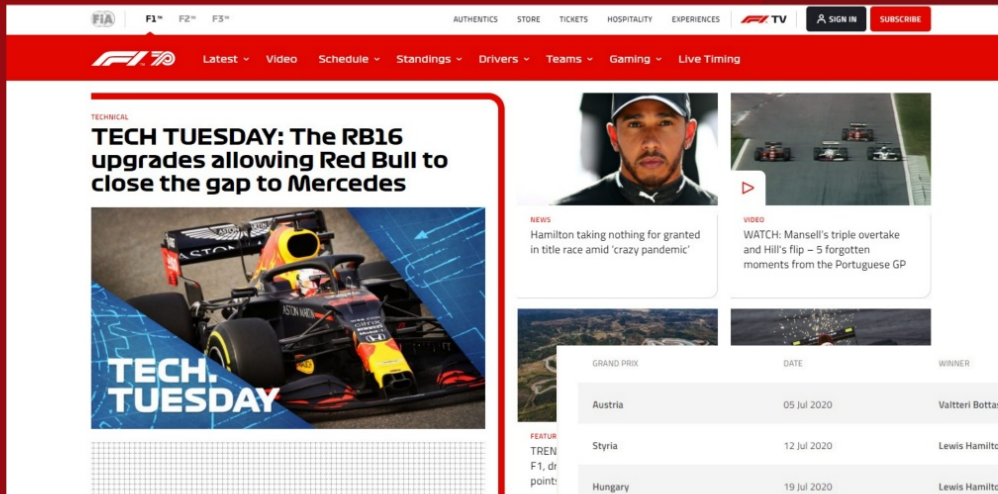

- 1st:25
- 2nd:18
- 3rd:15
- 4th:12
- 5th:10
- 6th:8
- 7th:6
- 8th:4
- 9th:2
- 10th:1
- *Fastest Lap:1
